Play values

Lounging, Swinging

Material

Posts made of powdercoated aluminium. The top is covered with a pole cap. Plate material is made of coloured 19mm thick HMPE of a quality for outside use. Upper bar made of powder coated aluminium. All metal parts are powder-coated aluminium or stainless steel. Connections are, where necessary, covered with a plastic cap. Swing chains made of stainless steel. Swing suspension Anti-twist.

Anchoring

Posts are placed in the ground with a galvanised steel base plate and poured in with concrete.

Remarks

With loose ground material as impact absorbing ground material, the obstacle-free space must be finished with at least 10 cm of the same loose ground material.
